Improvements Update!

We know you are eager to stay up-to-date with the progress of all our property improvements currently underway at Indian Palms. We are excited about the fabulous enhancements happening at your resort.

- **Check-In office:** The green awning located at the entrance of our office has been replaced with a lattice structure, similar to

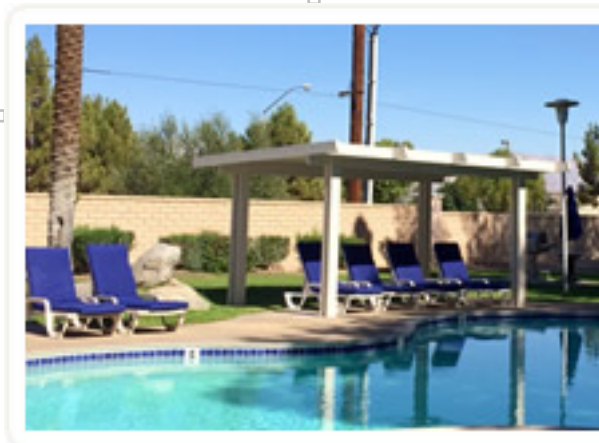

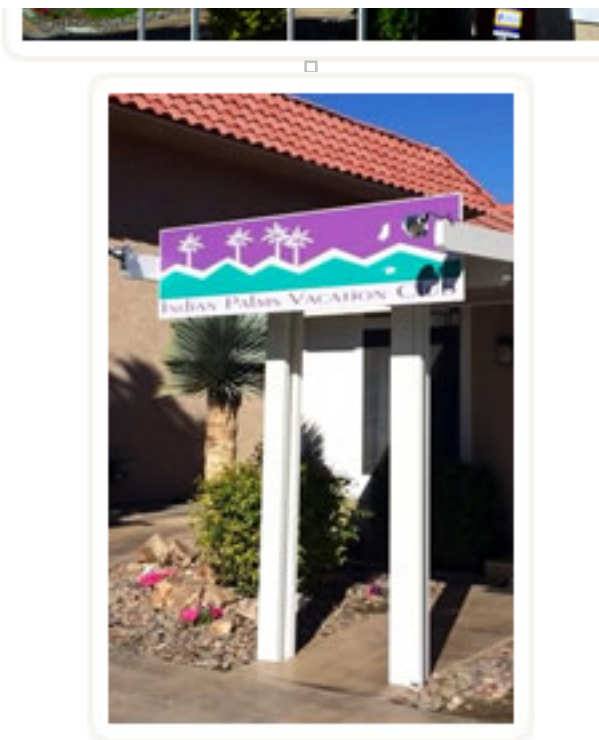

the lattice shades recently installed at both of our pools. A sign with our logo was added to increase our location's visibility – a request mentioned by many of our Owners and Guests. The structure's Alumawood material has a lifetime warranty, requires little to no maintenance, is weather resistant, will not warp or split, and is fire and termite resistant. You can see the improvement between the old green awning and the new lattice structure.

- **Pool Lattice Shades:** Alumawood structures have been installed at both of our pools. Owners and Guests can now enjoy the enhanced appearance of the pool areas, the additional shade and added lighting.
- **Carpet/Flooring Replacement:** This project is 50% complete. We continue to receive positive feedback from Owners and Guests. Enjoy the photos of the completed units.
- **Heating, Venting, & Air Conditioner Replacement "HVAC" (phase 2):** This project began ahead of schedule in order to save the Association money. Eleven of the 15 systems have been replaced.
